

↕ IRION LANCER JUMBO

bulmor
strong sideloader solutions

Efficient,
strong and safe

- Sideloaders
- Multidirectional sideloaders

Home of strong sideloader brands

Founded as Schöberl & Söhne Motoren- und Maschinenfabrik in 1879, the company first built forklift trucks in the 1960s and later specialised in the production of JUMBO sideloaders in the 1980s.

By integrating technology and experience from the sideloader pioneers IRION, LANCER and the German SHS, BULMOR is able to offer customised solutions from a comprehensive range of sideloaders and multidirectional sideloaders with over 45 years of experience in the manufacturing of forklift trucks.

Machinery Tradition since 1879

Creating individual customer solutions

sheet metal working
welding shop
turning & milling shop
assembly

Our machines reflect our focus on quality with the Austrian innovative spirit and reliability.

Service . Spare Parts

Downtime is expensive:

Bulmor offers you worldwide the support you need.

- Service on site
- Spare part centre
- Technical support
- Training centre

In action for you all over the world.

Bulmor advantages

Unique and solid centrepiece construction

For extreme durability and stability.

Loads lifted with safety

due to the solid lifting unit and the hydraulic tilting system on the side of the cabin

Designed for **easy maintenance**

Comfortable driving

due to the ergonomic driver's cabin

Designed for heavy loading due to its solid steering axle and centrepiece construction.

Sideloader

- 4 to 5 tons
- 6 to 8 tons
- Heavy Line 10 to 20 tons

Gas, diesel, electric

Unique **rigid frame construction**

Quick direction shift
due to the multidirectional steering with 12 steering programmes

Compact design
Maximum usability at smallest overall dimensions

Four or double load wheels mounted on a swinging axle.

Wheel load is distributed evenly. Extremely low wear contrary to fixed castors.

Solid design
Individually manufactured
Extremely durable

Multidirectional sideloaders

- 2 to 6 Tonnen with articulated frame
- 2 to 12 Tonnen with single-piece frame

Electric

DQ Series

DQn 40-50 (low platform)
DQ 50
DQ 60-80
DQr 50-60 (compact version)
DQs 60-80 (short version)

EQ Series

with electric drive
EQn 40-50 (low platform)
EQ 60-80

We comfortably
move long, heavy
and bulky goods.

Heavy Line

for heavy use
DQ 100 - 120
DQ 130 - 150
DQ 160 - 180
